## Green Acres is the Place for Me

Green acres is the place for AWC  
Weed pullin' is the life we lead  
Water spreadin' out so far and wide  
Keep the office, just give us the outside.

Outside is where we'd rather stay  
We're not allergic to weeds or hay  
We just adore a waterway view  
And we know our customers will, too.

Clearing and maintaining an access corridor is just one of the many services we offer. The access around boat ramps and docks can get out of control if not properly maintained. Native and non-native plants alike will grow over time to clog the area. These over grown areas hinder your view, fishing, swimming, boat access and reduce your property value.

Clearing a corridor is a 3 step process.

1. The unwanted vegetation is sprayed and killed in place.
2. 7-10 days later we are back to pull out the dead unwanted vegetation.
3. We dispose of it properly, revealing a clean corridor.

We can set up a maintenance program to keep the area clean. Periodic removal projects are more costly than a regular maintenance program. We can handle your green acres.

Weeds are our life,  
Good bye to the desk life,  
Green Acres WE ARE HERE!

If you love AWC as much as we love you, please take a minute to write us a review. Just Google the words Aquatic Weed Control, Inc. You'll see our ad on the right. Simply scroll down until you see the work REVIEW. Then click on "Write a review". It is as simple as that. *Thank You*
