## Who Ya Gonna Call? Aquaticbusters!

When there is something strange in your waterway — Who ya gonna call? Aquatic Weed Control!

When the unexpected appears along your lakefront — Who ya gonna call? Aquatic Weed Control!

When there's something weird and it doesn't look good — Who ya gonna call? Aquatic Weed Control!

Have you or anyone you know seen weeds or floating apparitions? If the answer is yes, then don't wait another minute. Pick up the phone and call us. Our courteous staff is ready to talk to you about your aquatic vegetation needs. "We're ready to believe you."

There is a lot of weed growing activity. We've heard about sightings everywhere and here is just one that is small but menacing.

### Floating apparition known as **Baby's Tears**

This petite leaved apparition can be found in slow moving, shallow waterways. You will usually find it submersed where the leaves will remain tiny, but if it is growing on damp soil the leaves will be larger.

- Leaves are 1/4 inch, circular
- Stems are 6 - 8 inches long and form small round mats.  
The mats are often hiding places for other slimy creatures called fish.
- The apparition does produce small whitish flowers that are rarely seen.
- Very small brown seeds are ribbed

If not treated this pesky apparition will release untold evil in your waterway. Don't let green apparitions scare you beyond reasonable thought, call us! We don't mind getting to the bottom of the problem, even if it means getting wet or, even worse, slimed.

We are the professionals. Each of our technicians are uniformed and wear a backpack. They have been trained to spray but to "not cross the streams, it would be bad".

We love this State and our customers! We ain't afraid of no weed!  
We're not bragging but weed bustin' makes us feel good.
